

This form should be completed if you are applying to have new electric facilities installed on your property for the purpose of providing electric service to a permanent or seasonal residential dwelling, cottage, mobile home, barn, garage, outbuilding or similar structure.

❖ **PROJECT CHECKLIST**

Below is a checklist to assist you with your project:

1. In order to expedite the assignment of your job to our Field Supervisor, please complete the following:
 - Complete and sign the Application for Electric Service with accurate Service Address
 - Complete and attach a detailed site sketch, blueprint, survey, plat or similar document
 - Complete the Liability Waiver Form
 - Sign and notarize any necessary easements (TCL&P can notarize these documents if needed – all parties must be present when signing)

2. Upon receipt of the above, the Field Engineer may contact you to arrange an appointment to meet at the site to discuss your job. Please make sure property pins are in place or property boundaries are marked prior to this meeting.

3. After the on-site meeting, the Field Supervisor will design your job, calculate the construction cost and provide you with an Electric Service Estimate Sheet. Please review the Electric Service Estimate Sheet when you receive it and contact the scheduling department at (231) 922-4940 ext. 243 with any questions or concerns. The Electric Service Estimate Sheet is valid for 120 days and will show the estimated cost to install the electric facilities required to provide service.

4. All new electrical services are REQUIRED BY THE STATE OF MICHIGAN to have an electrical inspection of the meter base before the service can be connected. Please see below for your appropriate electrical inspector:

ELECTRICAL INSPECTORS

Grand Traverse County

Contact: Ed Moody, Phil Nault and/or Mark Russell
Office: (231) 995-6049 and (231) 995-6028

Leelanau County

Contact: Ted Klumpp
Office: (231) 256-9806/Fax: (231) 356-7555

Local State Inspector

Contact: Dean Reid
Office: (231) 263-4160

State Inspector

(517) 241-9320

METER BASE PICK-UP LOCATIONS

DeWeese Hardware

1029 Carver Street, Traverse City
(231) 947-7670

Standard Electric

3743 W. Front Street, Traverse City
(231) 947-4440

Traverse City Light & Power

1131 Hastings Street, Traverse City
(231) 922-4940

5. In order to secure a place in the construction schedule, all documentation listed above must be submitted and the **meter base must be mounted or the location clearly marked on the outside of the building.** Upon

receipt of this TCL&P will contact you to coordinate scheduling of your job. *(Failure to mark the meter base location can result in delays and in some cases the rescheduling of the installation of your electric service.)*

NOTE: Obstacles such as lumber piles or brush located in the proposed path of the electrical facilities (e.g. poles, lines, transformers, etc.) can result in delays and in some cases the rescheduling of the installation of your electric service.

NOTE: In accordance with chapter 1366.04 of City of Traverse City, city ordinances, all new installation of utilities shall be placed underground.

❖ **CONTACT INFORMATION**

All documentation should be sent to:

Traverse City Light & Power, Attn: Scheduling

- Mail: 1131 Hastings Street, Traverse City, MI 49686
- Fax: (231) 922-4638

The scheduling department can be reached at (231) 922-4940 ext. 243

❖ **CANCELLATION**

The applicant may cancel the Application for Electric Service at any time. Please notify our scheduling department at (231) 922-4940 ext. 243 as soon as possible.

**REQUEST FOR ELECTRIC SERVICE
Residential**

*If submitting an application for a **Yard Light**, please complete the Service Address and Customer Information section only and sign on page 5.

Please read before signing:
The Construction Authorization/Underground Damage Liability Waiver must be signed by the **PROPERTY OWNER LISTED ON THE TAX PARCEL RECORDS.**

Construction Authorization/Underground Damage Liability Waiver:
 I certify that I own the property of the service address indicated on this Site Sketch, blueprint, survey, plat or similar document provided and that I have read and understood the above statement regarding marking, exposing or locating all private underground facilities. I represent that the information in this application is correct to the best of my knowledge. I understand that any changes made to the information or attached documents may increase the time and costs required for Traverse City Light & Power to provide service to this project. I furthermore agree to indemnify and hold Traverse City Light & Power, its employees and agents harmless for any damage to private underground facilities that occurs during the installation of electric service, or as a result of failure on my part to ensure that the private underground facilities on this property have been adequately marked, exposed or located.

Signature (Property Owner)

Title (if applicable)

❖ **SCHEDULE OF FEES**

• **Standard Installation**

The cost of new underground installations is \$3.50 summer, \$5.25 winter*, per trench foot length, plus \$50.00 for overhead to underground conversion. This is based on a clear and unobstructed path a minimum of 24" deep, from the source to the metering location. The customer will be responsible for the installation of conduits where open trenching is not possible. Where the customer installs conduit, the underground charge through that conduit will be reduced by \$1.00 per foot. Any subterranean boring required or removal of obstacles such as rocks, old foundations, trees and stumps will be billed to the customer at actual cost.

***NOTICE:** Winter rates help pay for the additional cost of the fuel and special equipment that may be required in order to begin construction during the period of winter when the ground is frozen. However, this is not a guarantee TCL&P will be able to perform the work. All required information for construction to begin must be submitted within two weeks of the winter period (December 1- March 31), or a winter rate will apply. If TCL&P chooses to begin construction during this period, winter rates will not apply.

• **Time and Material Billing**

Any work that does not classify as a new standard underground installation, such as relocation of poles, relocation of lines or temporary electric, will be billed on a time and materials basis at TCL&P rates.

• **Utility Billing Rates**

For electric tariff rates please refer to our Residential Service Rates, Residential Senior Citizen Service Rates, Residential Life Support Rates and Power Service Cost Recovery for additional information. These are found on our website at www.tclp.org.
