

**Date:** January 6, 2021

**Addendum #:** 1

**Project Name:** Six-Year Substation Maintenance

**Bid Due Date:** Tuesday, January 26, 2021

This addendum is to answer questions received via email:

- 1. Instructions to Bidders on page 3 indicates only Section C, E and F are to be submitted. However, page 8 states “Additional sheets may be used and submitted with bid.” Can supplemental information such as company history and experience, and details regarding the number of field techs employed, their NETA levels and years of experience be provided, or will that disqualify the bidder?**

*The ‘Instructions to Bidders’ section was intended to prevent bidders from returning the entire RFP packet, and to only return the sections of the packet required for evaluation. As stated on page 8, bidders are welcome to provide additional sheets needed to supplement the requested bid information. Additional information provided will not disqualify a bidder from evaluation.*
